Photographic Memory

Tadhg Nathan

Dear Tadhg,

I wanted to take a moment to thank you for the phenomenal job you did when photographing my headshots. I could not be happier with the beautiful and professional photographs you captured. What impressed me the most was your understanding of what makes a great headshot. You got me to sit in the strangest positions yet it was those photographs that made me look great.

I was also very impressed by the way you were able to put me at ease, the session was fun and relaxed. Your artistic talent and knack for the most precious of details is a testament to your professionalism.

We would also like to recommend you to anyone looking for a very talented and proficient photographer for any type of event. After doing research and experiencing firsthand the marvelous job you did, I can't imagine anyone possibly better.

Yours sincerely,

Vince Doherty,

Managing Director
